## Jojoba Oils Conventional & Organic

### Golden Oils

Jojoba Valley's Golden Jojoba oils are natural, cold-pressed liquid wax, produced from premium-quality jojoba seeds. We produce both Conventional Golden Jojoba oil (COSMOS Approved) and Organic Certified Golden jojoba oil (COSMOS, EU and NOP Organic Certificates). Nets, spread across the plantation ground, ensure that only the freshest seeds are harvested and used for further processing. During the harvest season (September thru October) the seeds are cleaned and dried before being processed by cold-press methods, to ensure that all of the oil's natural beneficial properties are maintained during extraction. The oil, which is very similar to the human Sebum that is secreted naturally from the skin, is rich in omega 9, vitamin E and other valuable components that make the oil the perfect ingredient for various cosmetic products. After being pressed, centrifuged and filtered, the pure oil is carefully packed in jerrycans, steel drums or IBCs and shipped under the strictest conditions to our customers around the world. The oils are Kosher, vegan certified and comply with Halal requirements.

### Colorless Oils

Jojoba Valley's Colorless Jojoba oils are natural, cold pressed liquid wax, produced from premium-quality jojoba seeds. The oil is crystal clear and odorless. The original golden-colored jojoba oil undergoes a physical process (no chemical intervention whatsoever) which removes its color and light natural scent, resulting in a premium-quality oil that preserves all of the benefits of the Golden Jojoba Oil products, only in a completely colorless and odorless form. This oil is perfect for cosmetic applications where the color and scent of the final product need to be controlled. Since the oil undergoes a completely physical process, the oils keep the original certificates of the Golden Oil and they are Kosher, vegan and COSMOS approved, while the Organic Colorless oil is COSMOS, EU and NOP organic certified.

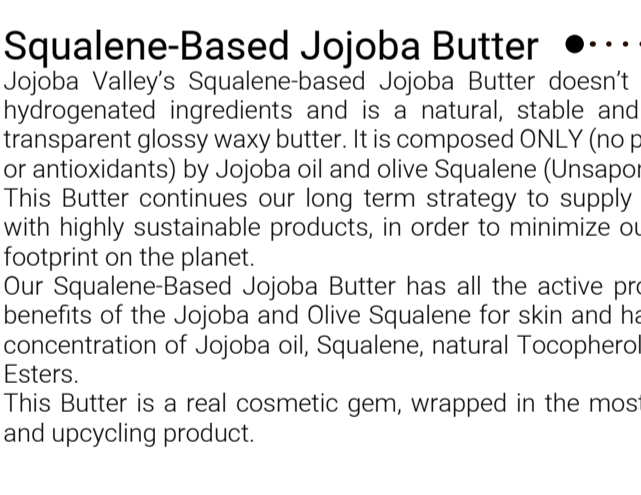

## Jojoba Butter, Wax & Scrub

### Jojoba Butter

Our Jojoba butter is the perfect addition to any skin, hair, lip and sun care formulation. With its regenerative and sensory advantages, it boosts almost any cosmetic product imaginable. The stable and delicate Butter form allows a wide range of new formulations, with the benefits of both worlds – The benefits of a Butter – Excellent texture, stabilizing properties, viscosity effect and emulsion attributes, while keeping all natural health benefits of the Jojoba oil.

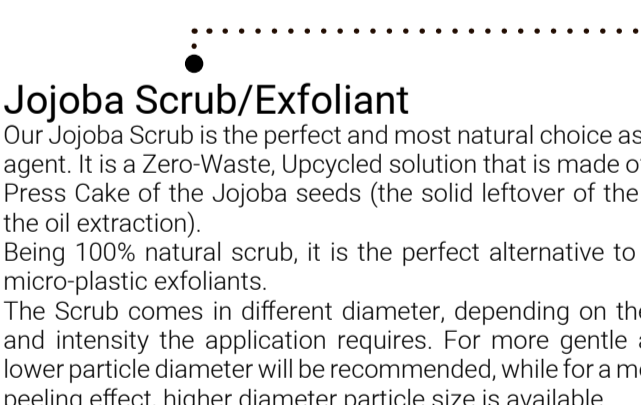

**Squalene-Based Jojoba Butter** •••••  
Jojoba Valley's Squalene-based Jojoba Butter doesn't contain any hydrogenated ingredients and is a natural, stable and pure semi-transparent glossy waxy butter. It is composed ONLY (no preservatives or antioxidants) by Jojoba oil and olive Squalene (Unsaponifiables). This Butter continues our long term strategy to supply the industry with highly sustainable products, in order to minimize our ecological footprint on the planet. Our Squalene-Based Jojoba Butter has all the active properties and benefits of the Jojoba and Olive Squalene for skin and hair, with high concentration of Jojoba oil, Squalene, natural Tocopherols and Sterol Esters. This Butter is a real cosmetic gem, wrapped in the most zero-waste and upcycling product.

### Jojoba Wax

Our Jojoba Wax comes in the form of off-white pearls and is extremely convenient to use in formulations where Wax is needed. It acts as a technological aid, viscosity builder and an alternative to animal/mineral waxes, like Paraffin, Synthetic/Micro-plastic, beeswax, etc.). It helps maintaining skin moisture and flexibility. This vegan, pure and natural Wax harnesses all natural attributes of Jojoba oil, in wax pearls form.

**Jojoba Scrub/Exfoliant**  
Our Jojoba Scrub is the perfect and most natural choice as an exfoliant agent. It is a Zero-Waste, Upcycled solution that is made of the Meal or Press Cake of the Jojoba seeds (the solid leftover of the seeds, after the oil extraction). Being 100% natural scrub, it is the perfect alternative to synthetic or micro-plastic exfoliants. The Scrub comes in different diameter, depending on the roughness and intensity the application requires. For more gentle applications, lower particle diameter will be recommended, while for a more intensive peeling effect, higher diameter particle size is available.

**About us**  
For more than two decades, Jojoba Valley has been growing hundreds of acres of Jojoba. Over the years we cultivated superior breeds of Jojoba that yield a high quality seeds, so that we can supply our customers and the cosmetic industry with the purest and highest quality Jojoba oil available. Jojoba Valley grows Jojoba plantations, producing oil under the strictest conditions and ship it all over the world. Controlling all steps of the supply chain, enables us to make sure you get the best products available. Our jojoba oils and products have all regulatory and quality certificates accepted in the industry.
